# Stay in control of your data costs when you're working abroad

## Daily Data Roaming and Reminders

### Make the most of now

With simple **Daily Data Roaming and Reminders** you'll know exactly how much you're spending when you access email or the internet from your mobile phone or mobile broadband whilst abroad.

**One great price for a day's data usage**

### What is it?

You get one great price for a day's data usage. This means you'll always know how much we're charging you.

For example, for up to £4.25 you get a 25MB daily allowance for internet browsing, email and modem access on your mobile phone while travelling in Europe. Or for £8.50 you get a 50MB daily allowance for using mobile broadband on your laptop while travelling in Europe.

As soon as you arrive abroad, we'll send you a text telling you the daily rates for a day's data usage in the country you are in.

### Who can use it?

Daily data roaming is ideal for business travellers who want to work abroad without the need to commit to a data roaming contract. It provides a simple and cost effective alternative to using hotel or business lounge WiFi.

**£8.50 for 50MB of mobile broadband in Europe**

### Daily Reminders

If you get close to your daily data limit, we'll text to let you know. And if you're still online when it's nearly midnight in the UK, we'll text to let you know you're about to start another 24 hours of data usage.

### Where can I use it?

On any network with a Vodafone data roaming agreement, with countries grouped in two regions:

- Europe
- Rest of world

To see which countries are covered in the Vodafone data roaming network, please visit [vodafone.co.uk/dailydata](http://vodafone.co.uk/dailydata)

## It's easy to work out what you'll spend

Data roaming on:	Allowance	Europe	Rest of world
<b>Mobile phone</b>	First 25MB	Up to £4.25 a day*	Up to £12.75 a day*
	Every 25MB thereafter	£4.25	£12.75
<b>Laptop</b>	First 50MB	£8.50 a day	£25.50 for 24 hours
	Every 50MB thereafter	£8.50	£25.50

Prices exclude VAT.

\* You'll be charged in 1KB steps, and if you use less than 1MB in Europe or less than 3MB in the rest of the world, you'll only pay for what you use.

## What else do I need to know?

- Your device may be set up to download small amounts of data automatically. It's important that you understand how your device works before you travel abroad.
- To get the most out of these reminders on your laptop, you'll need to have the latest version of VMC dashboard installed.
- For more information about Daily Data Roaming and Reminders, please visit [vodafone.co.uk/dailydata](http://vodafone.co.uk/dailydata)

**Text reminders  
when you reach  
your daily limit**

## How do I get it?

You don't need to do anything – daily data roaming is automatically available to business customers who don't have a data roaming plan.
